

# Veysel Mustafa Nantu

## Senior Software Engineer

Seasoned Senior Software Engineer with **6+ years of expertise** in full-stack development. Proven track record of driving performance optimization and building scalable systems and delivering high-impact solutions.

### Experience

#### **Ziraat Technology (Turkey's Largest Bank), Senior Software Engineer**

08 / 2021 - Present

Spearheaded the development of a high-performance bank management system, leveraging React.js, Javascript and TypeScript to achieve 40% faster load times and seamless scalability for 10M+ users.

Optimized backend services using Node.js, enhancing API response times by 35% and system reliability by 50% through rigorous testing and code refactoring.

Designed custom UI components with HTML/CSS, improving user engagement by 25% and reducing development cycles by 30%.

Collaborated with cross-functional teams to integrate real-time financial dashboards, reducing client-reported issues by 60%.

#### **Ericsson, Integration Engineer**

03 / 2021 - 08 / 2021

Led end-to-end integration of telecom systems for 5G network deployments, ensuring 99.9% uptime and compliance with global standards.

#### **Armain Tech, Software Engineer**

2019 - 2021

Detect and discover the possible errors, create and apply solutions. Collaborate with the responsible teams to solve the performance issues.

### Education

#### **Master of Science in Computer Science, Ege University**

2020 - 2023

**GPA:** 4.00 / 4.00

**Thesis:** On the Zagreb topological index of graphs of MV algebras

#### **Bachelor of Science in Computer Science (Honors Degree), Ege University**

**GPA:** 3.13 / 4.00 - **Top 5% student**

Istanbul, Turkey
